EDUCATION

Intended Bachelor of Arts in Computer Science

Expected May 2028

Cornell University, College of Arts & Sciences, Ithaca, NY

SKILLS

Languages

Mandarin (bilingual), Spanish (intermediate), French (intermediate)

Technical

Java, C#, Unity, Git, OOP, Data Structures & Algorithms, REST APIs, Python, Photoshop, Illustrator, Postman, Docker, OCaml, Jetpack Compose, IntelliJ IDEA, Kotlin, Android Studio, HTML, CSS, Javascript, Canva, Google Suite, Microsoft Office

Interests

Game design/development, psychology, cognitive science, quantum computing, neural networks, machine learning, creative writing, tennis

EXPERIENCE

Project Lead for CUXR Game Subteam

01/2025 - Present

- Led a multidisciplinary game development subteam for the CUXR Project Team, overseeing the design and implementation of a 3D prototype and coordinating with project staff throughout development
- Implemented core gameplay systems including object interaction, enemy finite state machines, and enemy detection logic
- Recruited and onboarded new members through Club Fest and Project Team Fest, reviewing applications and conducting candidate interviews

QA/Music Lead and Programmer for Potion of Soup's Monsterpiece

01/2026 - Present

- Implemented UI screens and programmed key rebinding, save systems, and backend data structures
- Reviewed gameplay systems, level importers, accessibility features, and more
- Polished the game's assets and produced the game's soundtrack
- Project link: <https://gdiac.cs.cornell.edu/gdiac/showcase/games/monsterpiece/> (winner of Audience's Favorite!)

Programmer for DGA's Scute Shoot

06/2025 - 07/2025

- Authored a comprehensive game concept document and successfully pitched the project
- Implemented player character mechanics and designed player-facing UI elements
- Planned and documented the sound effects code architecture to support scalable audio integration
- Project link: dgacornell.itch.io/scute-shoot

Programmer for DGA Studios' Duke vs. the Gang

08/2025 - Present

- Developed dialogue systems and authored in-game narrative content for the project
- Served as programming lead intern, contributing to technical direction and implementation
- Designed and implemented a player loadout UI as well as a player progression system to support flexible gameplay configurations
- Project link: https://store.steampowered.com/app/4662580/Duke_vs_The_Gang/, <https://dgacornell.itch.io/duke-vs-the-gang>

Teaching Assistant for CS 1110

08/2025 - Present

- Supervised three undergraduate consultants and coordinated biweekly lab sections serving 40+ students
- Playtested and provided feedback on prospective student examinations
- Provided academic support through office hours, assignment grading, and individualized guidance
- Mentored and trained entry-level teaching assistants during onboarding to support instructional consistency

National Scholar for the Meinig Family

08/2024 - Present

- Selected for a highly competitive leadership program recognizing academic excellence and leadership potential
- Participated in the Executive Mentoring Program, apprenticing under senior university administrators including Vice President Donica Varner
- Attended leadership workshops and professional development seminars focused on long-term impact and community building
- Contributed community service hours throughout the academic year to maintain membership standing

Publication Chair for the Interdisciplinary Psychology Club

08/2024 - Present

- Recruited new members at the 2025 Club Fest and authored a literature review on quantum cognition research published in the 2025 IPC Journal
